St Lawrence Reading Scripture

The Psalms and the Songs of Ascent

During the season of Lent, we'll be reading the scriptures together through Bishop Barron's book Lenten Gospel Reflections. And so, in the 17 days of February before Lent begins, we as a parish will prepare for that season of fasting, prayer, and almsgiving by reading from the psalms, specifically from the "Songs of Ascent". Below is an introduction to these psalms and a suggested reading schedule

Introduction to the Book of Psalms

The Book of Psalms is a collection of prayers, poems, and songs. More than just a kind of hymnal, the psalms cover the full experience of what it means to be the people of God. Many of the psalms are songs of praise and thanksgiving. However, just as many are poems of deep sorrow and worry, some even questioning if God cares about us at all. No matter what emotion you're feeling, struggle you're dealing with, or reason you have to be thankful, there is a psalm for you! Of the 150 psalms, King David is attributed with having written 73 of them. Asaph (a Levite and musician who served at the time of David) is said to have written 12 more, and the "Sons of Korah" (the descendants of a different Levite and poet) are given credit for 11. There are a few other authors mentioned here and there, but the rest are mostly anonymous.

The Book of Psalms as we have it in our Bible is itself divided into 5 smaller books, each of which end with the line "Blessed be the Lord, the God of Israel, forever". Many scholars and theologians have proposed different reasons for why the psalms are grouped together as they are, and there's not enough space in a bulletin to go through each of those, but the important part is that these have not

been haphazardly thrown together. The Psalms are carefully organized to lead us through the ups and downs of the life of faith.

One thing that most people agree on, however, is that Psalms 1 and 2 serve as an introduction for the themes that will be found across the rest of the psalms, which is why we'll start with those ourselves before moving on to the Songs of Ascent.

The Songs of Ascent

Psalms 120-134 are collectively known as “The Songs of Ascent”. At risk of oversimplifying them, these 15 psalms are songs of pilgrimage. At some points they would be sung as pilgrims climb Mt. Zion as they approached the temple, at others they would be sung as pilgrims climb the steps into whatever church or Cathedral they were visiting. But in any case, the 15 psalms together tell the story of a people who are in deep distress, crying out to the Lord for deliverance, and then slowly, psalm by psalm, coming to see the faithfulness of the Lord in coming to rescue them. The Songs of Ascent begin with Psalm 120 crying out, “In my distress I cry to the Lord!”. Over the course of the songs, the author will express hope that God has been faithful before, and will surely be faithful again, only to just as quickly turn back to tears, wondering how long they must wait for salvation. But in the end, God comes through for us, as he always does, with psalm 134 shouting “Come, bless the Lord, all you servants of then Lord!”.

They are the poems of people who know that only God can save them. They are poems that begin in a place of despair, and end in a place of glory. And I can think of no better way to prepare for a full and meaningful Lent than to spend days leading up to Ash Wednesday praying these psalms together as a parish.

Thank you to our dedicated volunteers who help to prepare and serve. And thank you to everyone for whom, without your donations we would not be able to participate in such a wonderful ministry.

Martha's Ministry helps our parishioners who are sick or have come home from the hospital and could use a home cooked meal and a visit from fellow parishioners from church. We can also bring communion and assist with community events such as dinner at the library. Please contact Sue Litkenhus to join this beautiful ministry.

Donations:

Clothing: Please donate new underwear and socks and gently used clothing. The socks and underwear are especially needed and appreciated!

- **Food:** This year rather than ask for food donations at Walmart and Sav-a-lot, we are inviting our church members to donate to Anderson United to help pay for the food we need to purchase. We cannot provide the food we need for our Anderson United food pantry without these very important donations, and we do not want anyone to go away hungry. PLEASE consider donating if possible!

Monetary Donations:

- You can sponsor a foodbox or multiple food boxes at \$25/box on the website
- Or donate to the general fund through the website
- Or make a deposit directly into the AU account at any Commonwealth Credit Union

Thank you! Please pray for the success of the clinic. It is an amazing outreach effort and a beautiful way to bring God's love to people in Anderson County. Christ cured the sick and fed the hungry. In taking care of their pressing physical needs, Jesus opened their hearts to his love. We are called to do the same. Thank you for your generous help and support this year! Thank you for sharing your time, talent and treasure!

St. Lawrence Laudato Si

Solar Electric for St. Lawrence

Key points:

- The Diocese directed all parishes to look into solar energy with the goal of reaching net zero
- The St. Lawrence *Laudato Si* committee researched our options on solar energy and recommended we move forward
- The price for the project is around \$140,000
- With rebates and private donations, the worst-case scenario is that it will cost the parish \$12,845
- When the system is installed, our utility bills will decrease by around 50% or more considering the projected increase in energy prices.
- This will allow more funding for parish programs and evangelization
- There was consensus from both Parish Pastoral Council and the Finance Council, and approved by Fr. Steve, to move forward with the project
- Members of the committees will be available for questions after the Masses on Feb. 14th and 15th in Blandford Hall

Background: As part of the Laudato Si effort to reach net zero (Net zero means cutting carbon emissions to a small amount of residual emissions that can be absorbed and durably stored by nature and other carbon dioxide removal measures, leaving zero added to the atmosphere.), the Diocese identified the use of alternative energy as one way to address our environmental impact on the earth. After evaluating available energy alternatives, the Diocese concluded that solar electric was the most feasible and cost effective. Every parish in the Diocese was asked to consider installing solar energy in their parish.

Why should our parish consider solar energy? Energy costs continue to go up. Once the panels are installed, we will see an immediate reduction in our electric bills (approximately 46% annually). (**current average electric bill is \$11,460 per year and should be reduced to \$5,244**) Our use of solar decreases the burden on the energy grid. If we install our panels before the end of the year, we are eligible for a sizeable government rebate. We have received a grant through the Diocese for \$10,000 to help defray the cost of installing solar energy. In addition, we have some parishioners who have donated to help underwrite the cost. Future generations will benefit. The money we save by lowering our energy bills is money we can use for our parish ministries. Solar energy is a clean energy source which is good for the atmosphere.

What we did: The Diocese forwarded St. Lawrence a proposal from a Lexington solar energy contractor for our consideration. Laudato Si committee went back to that contractor and asked for more complete proposals for all three of our buildings: the church, Gabriel Hall, and the rectory. In addition, we solicited proposals from a Louisville solar energy contractor who was selected by both *Solar over Louisville* and *Solar over Frankfort* in the past. After several iterations with each contractor and evaluating the best value for us, the committee recommended Pure Power Solar from Louisville. They are a family-owned business, with all workers directly employed by them, and no subcontractors. Additionally, all the equipment in their proposal qualifies as American made which

increases the government rebate to us. This recommendation was presented to the Pastoral Council and Finance Council. After much thought and prayer, both councils approved the recommendation to go forward with the installation of solar at St. Lawrence.

What will we get? The equipment consists of 106 Solar Panels with DC power optimizers and DC to AC Inverters to interface with the existing power panels in the three buildings. When installed the buildings will have arrays as depicted below:

Church

Rectory

Gabriel Hall

What will it cost?

Contract Price	\$138,911
Less Grant from Diocese	-\$10,000
Less-Donations	-\$75,000
Initial cost to Parish in 2026	\$53,911
Less Government Rebate	-\$41,066
Maximum cost to Parish	\$12,845

We welcome additional donations to help minimize the financial impact on the parish.

There will be presentations and discussions on the projects after Mass on February 13th and 14th for anyone who is interested.
